10 STATUS AND INCIDENT REPORTS

10.1 General

Status and incident reports from RACF can be retrieved by an AO using transaction ZLBL for printout at the AO. It is also possible for an AO or other participants to format their reports themselves by retrieving the data via file transfer, using transaction ZOBL and the file BARF072.

History of the versions:

Date	Ver.	Description
2004-05-05	1.0	New translation, published on www.vpc.se.
		◆

10.2 BARF072 = File from VPC

Used for file transfer of data from RACF with respect to status and incident information.

File header Required record See Layout for - [BARF0721](#)

Terms in [BARF0721](#):

Term name	Content
ID-FILE-IN	BARF072'
ID-FILE-REPLY	BAR STATUSREPORT'

Report recipient Required record See Layout for - [BARF0722](#)

Report type 01: Users in administration area See Layout for - [BARF0723](#)

Report type 02: Users in office group See Layout for - [BARF0723](#)

Report type 03: Regional users in authorization group See Layout for - [BARF0723](#)
